Forecast for Friday 28 Jan 2022

Weather: A bright start, however cloud will increase through the morning. Outbreaks of light rain or drizzle are possible by the evening with some fog on the tops, mainly in the west. Winds also strengthening.

Chance of cloud-free hill tops above 600m: 80% in the morning becoming 40% in the afternoon, best chance in the east.

Low cloud and visibility: Cloud obscuring tops above 500m, mainly northwestern hills. Away from cloud, views are likely to be good, particularly in the morning but becoming hazy through the afternoon. Cloud lowering to 300m across some western hills in the evening.

Forecast for Saturday 29 Jan 2022

Weather: Cloudy for much of the morning, with outbreaks of light rain or drizzle. A band of blustery rain then spreading south early afternoon before turning drier and brighter from the northwest with sunny spells. Very windy in the morning but easing a little through the afternoon. Feeling very cold, especially in the wind.

Maximum wind: West 30-40mph with gusts 50mph in the morning, easing to 20-30mph, gusts 35-45mph in the afternoon.

Chance of cloud-free hill tops 600m: 20% in morning, becoming 95% during the afternoon.

Low cloud and visibility: Extensive cloud above 500m in the morning with patches down to 300m on some western hills. Rather hazy below the cloud. Turning poor in the rain. Cloud then lifting breaking to leave excellent visibility in the afternoon.

Temperature: **Valleys:** Plus 9 Celsius in morning, falling to Plus 6 Celsius in afternoon.
At 600m: Plus 6 Celsius, falling to Plus 2 Celsius in evening.
Freezing level: Above summits, lowering to 800m in evening.
